BULLETIN

Steuensville, Feb. 24.—Assistant Cashier H. D. Price is dying and thousands of dollars are reported missing in the Mount Pleasant bank robbery this morning.

The robbery occurred just when the bank opened for business.

Cashier Shot Three Times

Steuensville, Feb. 24.—A telephone message from Smithfield at 10 o'clock this morning said that Assistant Cashier H. D. Price was shot three times by two bandits who held up the Peoples National bank at Mount Pleasant, 14 miles west of here.

The bandits cut the wires on both sides of the town. Numerous posses armed with riot guns left here to scour all parts of Jefferson county.

The Smithfield telephone message says the bandits headed toward Canton.

The bandits left Mount Pleasant in the direction of Smithfield in their high-powered car. Police at Wheeling and all adjoining towns were notified.

Railroad description say the men were tall, powerful of build, unmasked and wore heavy overcoats.

Putting Up Mine Payroll

Cashier Ed Jones was in a back room of the bank putting up mine payrolls when he was attracted by the shooting of Price. He rushed to the door of the bank, seizing a revolver as he ran. He opened fire on the robbers, wounding one badly he believes. The men backed out the door to the car which was occupied by a third robber and drove away.

Price, the assistant cashier, who was alone in the bank when the robbers entered is said to have been ordered to hold his hands above his head and was in that position when he was shot through the lungs, shoulder and foot.

Bandit Wounded

Martins Ferry, Feb. 24.—Passengers on the first bus arriving here following the Mt. Pleasant bank robbery reported that one of the robbers evidently was wounded as a trail of blood led from the bank to the bandits' auto after Cashier E. B. Jones, had fired at the man, who had wounded Assistant Cashier H. D. Price. A local physician left shortly after 10 o'clock for Mt. Pleasant to care for Mr. Price. The robbers sped north through Smithfield in a car bearing Ohio license No. 299,837.

SPURIOUS RELICS SOLD AS JEWELS FROM TUT'S TOMB

Claim Greater Discoveries Are Found In Original Garden Of Eden.

Luxor, Egypt, Feb. 24.—Spurious relics, alleged to have been taken from the tomb of Tut-ankh-amen, have begun to make their appearance in Egypt, police reported today.

They said that thrifty but unscrupulous Egyptians, taking advantage of the intense curiosity of foreign tourists, are manufacturing imitations of jewelry and art objects found in the two chambers of the three-thousand year old tomb.

Lord Carnarvon and Howard Carter, leaders of the exploring party that found the tomb, have not yet reached a decision as to when it shall be resealed. Negotiations with the Egyptian government are still in progress.

The number of foreign tourists in Luxor is increasing daily. They are flocking here from all parts of the world. Most of them are wealthy and are paying large sums for small objects associated with Tut-ankh-amen. Little chips of stone, alleged to have come from the tomb, sell at \$10 a piece.

Find Older Relics

London, Feb. 24.—Relics much older than those found in the ancient tomb of Tut-ankh-amen are being dug up by the Anglo-American exploration party at work in Mesopotamia, said a Baghdad dispatch to the Times today. The excavators are working under orders from the British museum and the University of Pennsylvania. Starting near the spot where the original Garden of Eden is believed to have existed, the explorers uncovered remains of the ancient city of Ur.

They found a new temple in which the moon was worshipped and a building which was utilized as the "moon's" harem.

A vase dated back 2,000 years before the era of Christ, was found. Remains of a brick wall were found which was believed to have been built in the second dynasty of Ur, about 3,500 years before Christ. This was about 1,000 years before Tut-ankh-amen was buried in Egypt in the valley of the kings.

Jewelry has been found which is believed to have belonged to the period of Nebuchadnezzar, the historic king mentioned in the Old Testament.

When she saw Alguin in the custody of Americans she went up to him and expressed regret for "turning him up." JURY DISAGREES IN KELLY CASE

One Son Testifies Against Father; Others Deny Charges.

From statements made by members of the jury, composed of ten men and two women, the vote was nine for conviction and three for acquittal, the women voting with the majority for conviction.

The case was given to the jury at 5:30 p. m. Friday after a hard legal fight which had lasted all day. DR. KING INDICTED FOR DEALINGS IN CARROLL COUNTY

Salem Man And Assistant Held In Connection With Stock Sale.

DENIES CHARGES WHEN ARRESTED

Had Been Selling Stock In Nu Era Flour Company Of Malvern.

Dr. Lowell King of Salem and a Mr. Saunders of Youngstown were indicted by the recent grand jury of Carroll county on charges of irregularities in connection with the sale of stock in the Nu Era Griddle & Waffle Flour company, of Malvern, according to word reaching Salem Saturday.

King was arrested Thursday by the sheriff of Carroll county and taken to the county jail at Carrollton. His bond was placed at \$2,000, as was that of Saunders, who furnished bond and was released.

It is reported that Carroll county people have purchased stock in the Nu Era company to the extent of \$30,000. Some irregularities in connection with the sale were alleged and the stockholders, aided by the state blue sky commission, succeeded in bringing the case to the attention of the grand jury, which returned indictments on two or three counts.

Denies Charges

A separate indictment charges King with having altered a deed or mortgage negotiated in connection with the purchase of a mill property in Malvern. This King denies, his statement saying that the deed had been altered before it was turned over to him. He also denies irregularities in the sale of stock, or any intent to misrepresent.

Dr. King and associates organized the Nu Era company in Salem about three years ago and first manufactured a special pancake flour, later producing waffle ovens. When the business here failed an attempt was made to operate at Malvern and to dispose of more stock to place the company on its feet again.

Dr. King has just recovered from a serious operation, having left the hospital only a few weeks ago.

Changing The Constitution

LEGISLATIVE bodies, national and state, are deluged with proposals to amend the Constitution. More than fourscore proposed amendments have been brought forward since the present congress began business March 4, 1921. The Ohio legislature has been in session less than two months, but in that short space of time 18 amendments to the state constitution have been proposed.

In congress some of the proposed amendments have merit and may be submitted. In the state legislature a small number of the proposed amendments may have merit, but in both places the large number lack any justification and should not be submitted. Some lawmakers are prone to adopt the unsound theory that change means progress and that when constitutions are amended a forward step is taken, that government is made better and advantages to the individual are increased in number and value.

Where the interests of the nation or of a state will be promoted there is good reason for considering a change in the constitution. These historic documents are not inviolate and should be amended and changed and rewritten when the progress of the country and the development brought by the years supplies the justification. But constitutions are fundamental and ought to be protected from unwise tinkering and experiments.

It is not apparent to any student that fourscore amendments are needed to the federal constitution to make the American government ready to meet and handle the problems of the day. Nor is it apparent that 18 amendments are needed to make the Ohio constitution better serve the millions of people in the state. Congress will be wise if it gives little thought to most of the amendments.

In the Ohio legislature, as in congress, there is nothing to prevent amendments being proposed. Any member may propose as many as he cares to prepare or accept from others for introduction. But it is quite probable the legislature will reject most of those pending, may do so safely.

There is much of political unrest. It finds expression in tinkering with laws and constitutions. Unless there is a plain case with an outstanding reason and justification visible to any citizen it might be well to let the proposed amendments die in committee.

9 Blazing Klan Crosses Excite Sebring People

Many crosses burned in eastern Mahoning county and on the outskirts of Alliance Thursday night in a supposed Ku Klux Klan demonstration that ended in the deep intonation of an exploding bomb somewhere in the vicinity of Sebring.

Two flaming torches set up in East Alliance caused excited onlookers to call police to the scene about 9:30.

No one who might have fired the crosses was sighted by them either at the intersection of the Sebring and Irontown rds. or at the Stark Electric stop 47, officers said.

In Sebring a cross burned at Ohio avenue and Johnson's road, exciting the villagers, who were further aroused by the explosion west of town.

Passengers on trains and interior buses saw the crosses burning and were consumed with curiosity equaling that of residents of the neighborhoods in which they appeared apparently from nowhere.

The demonstration included nine blazing crosses about Sebring and Alliance, heralding a gathering in Sebring of several hundred klansmen for initiatory rites.

LAD BURIED UNDER WHEAT AVALANCHE, DEAD WHEN FOUND

Alliance, Feb. 24—Clarence Chevraux, ten-year-old son of Mr. and Mrs. Eugene Chevraux of Louisville, was suffocated at noon yesterday when he was sucked into a wheat bin of Louisville Feed and Grain Co. About fifteen hundred bushels of wheat covered the boy and it was not recovered until an hour later.

The lad in company with his brother, James, aged 12, had been sent to the mill with their father's lunch. After delivering it, they began to play in the wheat bins, according to the story related today. James was playing in one bin and Clarence went into another. The bottom of the bin was open and wheat was being loaded into a car. The lad had gone only a short distance when the wheat began to give way under his feet and the suction gripped his body.

Screams of the boy attracted the attention of the father who was working on the floor below. He ran to his rescue and seeing the situation grasped the arms of the boy. The suction was too strong and began to pull the man into the opening. He loosened his grip and the boy disappeared.

10,000 EDUCATORS ARE EXPECTED TO ATTEND MEETING

Child's Viewpoint Will Be Theme At Convention In Cleveland.

Cleveland, Feb. 24.—Sweeping changes in the fundamentals of education in the United States are indicated in the program of the annual meeting of the department of superintendence of the National Education Association and 13 other organizations of similar aim, which are expected to bring some 10,000 persons to Cleveland from Feb. 25 to March 2.

The big general theme of the convention is that education must be dealt with from the point of view of the interest of the child and the state, rather than from the point of view of the technique of administration. This was somewhat differentially stated at the annual convention of the National Education Association in Boston last summer. At that time emphasis was placed upon "the democratic awakening of education."

This is believed by many to involve some drastic changes in curricula and one of the most interesting points which this convention is expected to disclose is the direction which curricula reformation should take.

Service is the dominant note in this new educational program and the convention will outline means of training for responsibility, working from the premise that leadership confidently may be expected to develop among those who have comprehended the standards of right living. To en-

Kansas City, Mo.—"I was left in a very serious condition after childbirth and no one thought I could ever be any better. Then came the 'Change of Life' and I was not prepared for what I had to suffer. I had to go to bed at times to be perfectly quiet as I could not even stoop down to pick anything from the floor. I did not suffer any pain, but I was decidedly nervous and could not sleep. For nearly two years I was this way, and the doctor was frank enough to tell me that he could do no more for me. Shortly after this I happened to see in a newspaper an advertisement of Lydia E. Pinkham's Vegetable Compound. In a few days the medicine was in the house and I had begun its use and I took it regularly until I was well. I recommend the Vegetable Compound to others when I have the opportunity."—Mrs. MAY LINDQUIST, 2814 Independence Ave., Kansas City, Mo.

FEUDAL OUTBREAK ENDS IN DEATHS

Knoxville, Tenn., Feb. 24.—One death, two probably fatally wounded, and one held in jail today charged with first degree murder is the toll of a feudal outbreak at Jampa, Monroe county.

Greeley Garran, farmer, is dead; Dewey Smith and Gene Isbel, sawmill workers, are in a hospital here as the result of a shooting affray in which only one gun was used, Jacob Tipton is held at Madisonville charged with the shooting.

The trouble arose, according to officers investigating the case, when Garran refused to return a greeting from Tipton as the two men met on a highway. Isbel and Smith came just as Tipton turned around and came back to "reason" the matter with Garran. When Garran made a move, according to Tipton's story, a fight broke out. Smith and Isbel were shot while trying to prevent the trouble.

Ship Subsidy Bill Gets Death Blow, "Funeral" Monday

Washington, Feb. 24.—The ship subsidy bill, battered by 10 weeks of by-partisan attacks in the senate, was struck by its death blow this afternoon when administration leaders formally announced they would agree to pass it away to a legislative death Monday.

An effort to arrange amicable agreement of the legislative funeral, however, brought a new clash when Sen. Lenroot, Republican, of Wisconsin, objected to a request which would have killed the bill shortly after 1 o'clock Monday. Lenroot declared he was in favor of holding the "funeral" today.

RAILROADER HURT, DEMANDS DAMAGES

John Sposato, Section Hand, Sues Pennsylvania Co. For \$5,000.

John Sposato, a section hand employed by the Pennsylvania railroad, through his attorney, K. L. Coburn, of Salem, has filed a damage action against the railroad company in the sum of \$5,000 for injuries received while in its employ.

In his petition Sposato states that while repairing the track near Leontina, he and three other men were ordered to hit a hand car from the back in the face of an approaching train. In a great hurry to save a wreck, he says he exerted himself and was painfully ruptured.

He had to undergo an operation and that he will never recover from his injuries, the petition claims.

He states that he performed this act in order to save the company from a possible wrecking of the train and under the orders of his foreman.

Farm Bloc To Rush Bills Thru Congress

Washington, Feb. 24.—With the administration ship subsidy bill wrecked on the oratorical rocks of a coalition filibuster, the "battalion of death" today lifted their ban or senatorial business for the enactment of minor legislation.

With the subsidy out of the way, members of the "farm bloc" planned to rush a number of agriculture bills through both houses. The first of these, according to a "gentlemen's agreement," will be the Ladd "filled milk" bill which was approved by the "death battalion" of which Sen. Ladd, Republican of North Dakota, was a member.

The truth in fabric bill, sponsored by Sen. Capper, Republican of Kansas, the McNary standard container bill, and the Gooding wheat stabilization bill, were also on the "farm bloc's" program.

COMPENSATION LAW CHANGE IS SOUGHT

Capital And Employees Back Plan To Amend Ohio Constitution.

Columbus, Feb. 24.—Proposed amendments to the workmen's compensation law increasing weekly benefits from \$15 to \$18.75 and death awards from \$5,000 to \$6,500 and a plan whereby the "open liability" feature may be eliminated partially have been agreed upon by representatives of capital and labor and the state industrial commission.

A bill proposing the changes probably will be introduced in the legislature next Monday. The bill also will bring employers of three or more persons under the compensation law. The present minimum now is five.

The plan to eliminate the "open liability" under which injured employees may go into the courts for damages on grounds of the employer's neglect is to be proposed in a constitutional amendment under which the industrial commission would be made the arbiter in such cases.

A safety fund for prevention of accidents would be created by assessing employers 1 per cent of the compensation premiums.

The compromise amendments were agreed upon by T. J. Donnelly, secretary of the Ohio Federation of Labor, and Malcolm Jennings, secretary of

the Ohio Manufacturers' Association and industrial commission members.

Rickenbacker Car Makes High Speed

On the frozen two and one-half mile brick road of the famous Indianapolis Motor Speedway, a Rickenbacker touring car traveled 52.2 the rate of 83 miles per hour. The test was made with top and windshield up, complete equipment and a full complement of passengers.

The car was run for a solid hour at the rate of 63 miles an hour previous to the trial for speed. In a speed trial a Rickenbacker sedan made 72 miles per hour.

The sedan was driven on a non-stop, 500-mile tour of the course at the rate of 52 miles per hour and the touring car was driven 250 miles at a speed of 58 miles per hour.

At a speed of 83 miles per hour, the Rickenbacker motor was turning up 4,190 revolutions per minute, according to C. L. McCue, who conducted the tests.

The trials at Indianapolis were made at the conclusion of a 4,500 mile experimental drive conducted with two Rickenbacker cars. Leaving Detroit the cars traveled around the lake to Cleveland, thence to Buffalo and on to Springfield, Mass., south through Philadelphia, west over the mountains to Pittsburgh and a dash from Pittsburgh to Chicago—a distance of 580 miles—without a stop, in 22 hours.

Unusual conditions of sleet, snow, rain and cold were encountered and the chains were necessary on the wheels during many miles of the experimental journey.

Selig-Henry Phillips was drowned when a cow he was leading to water became unmanageable and dragged him into the creek.

EX-HIGHS ACCEPT FLOOR CHALLENGE

Ready To Play Series With Independents, First Game Wednesday.

Hot on the heels of the challenge issued Friday by the Salem Independents for a series of games with the Ex-High basketball team, comes an acceptance of the challenge today by the management of the Ex-Highs. And thereby hangs a tale.

When the Salem High school basketball team was scheduled its present list of games, the question of the annual clash with the ex-high players came up. After considerable discussion it was decided to limit the players of the alumni team to graduates of the last three years.

The High school players took over the alumni of the last three years and the older grads declared school authorities had shown too much discrimination in their choice of an opponent for the scholastic passers, for if the three year limit had not been placed the game would have been an easy victory for the Ex-High passers.

"Furthermore," declared the older grads, "we could have played rings around the team that represented the Ex-High players."

Now they are going to have a chance to prove that declaration, for the Salem Ex-High team has accepted the challenge of the Independents with the following reply:

"In reply to the Independents' challenge of Friday, the Ex-Highs accept their challenge, winner to take all, and propose that the first game be played Wednesday, Feb. 28."

LEETONIA WANTS STAR MAIL ROUTE

Leetonia, Feb. 24.—A star route mail motor truck between Leetonia and Youngstown, with mail disbursements and collections at Washingtonville, Greenford, Calby, Canfield and Austintown is the plan of Postmaster H. D. Weaver of this city, who has already opened negotiations regarding it with the postoffice department at Washington.

At present all these towns have closed pouch service over the Erie freight, which runs at irregular intervals. The service is unsatisfactory since as much time is required to send mail to and from this city and Youngstown as to and from Chicago.

TUNNEY REGAINS TITLE FROM GREB

Decision Of Judge Hissed, By Fans; Greb Was The Aggressor.

Gene Tunney, idol of Greenwich village, regained the American light heavy-weight championship last night when he gained the judge's decision over Harry Greb of Pittsburgh, the title holder in a 15-round contest at Madison Square garden.

The decision was met with mingled boos and applause, despite Tunney's popularity among the great majority of the fans, and came as a surprise to those at the ringside who had given Greb a wide margin on points in most of the rounds.

Tunney was baffled by Greb's whirlwind style of attack throughout the early part of the bout. He finished the last two rounds, however, with the only effective aggressiveness he had shown, boxing the champion once with a hard smash to the jaw. This closing rally of the challenger, plus consideration, probably given to alleged foul holding tactics employed by Greb in several rounds was believed to have swayed the judge's verdict, however unsatisfactory it was to a large portion of the crowd.

While Greb landed at least three blows to one for his rival, few of them did much damage. Tunney's body attack, especially in the fourteenth round, at times checked Greb's rushes, but the Pittsburgher blocked most of the New Yorker's blows.

LEETONIA

The Kiwanis club of Leetonia met on Wednesday evening at luncheon in St. Paul's Sunday school chapel. Those in attendance had the rare opportunity of listening to an address by Rabbi Philo of Youngstown on "American Citizenship" which was filled with old truths set forth in new light.

The business which was to have been discussed at this meeting was postponed to be taken up at the next session.

Victor's Home Burns
Mrs. Charles Groner has received word from Dover that the home of her sister and husband, Mr. and Mrs. Orvil Laizel, formerly of Leetonia, had been partially destroyed by fire the last of this week. The fire was caused from an over-heated furnace. The damage amounted to \$200. Mr. Laizel's mother, Mrs. Emmaline Laizel, of Leetonia, was ill in an upstairs room and was carried out of the smoke and flames with no bad results, but a severe shock caused from fright.

Swindlers At Work.
Regions about Leetonia have been in the throes of swindlers. Columbus has been the latest working field. H. A. Keller of the Keller Hardware store, Main st., was the victim. A fine appearing elderly man, who entered the store and made a purchase of 50 cents and in payment presents a check for \$5.27 on the Citizens

National bank of Norwalk, Ohio, bearing the name of C. A. Reed and signed by Jas. A. Butler, treasurer of the Butler-Harvey Nursery Co. On the face of the check, was stamped for commission on sale No. 26671. The swindler was 5 feet 10 inches in height and wore gray chin whiskers, and their families. An excellent program had been arranged consisting of songs, readings and parodies. Of special interest was the playing on the snare drum by little five-year-old Joseph Reuss. Others participating in the program were Miss Gussie Glinther and Donald Oehrle. Following the lunch the time was spent in dancing and at cards.

Rickenbacker
A CAR WORTHY OF ITS NAME

The first year--
Just a year has elapsed since the Rickenbacker Six was first placed on the market. Its reception during this first twelvemonth has been extremely gratifying.
Now the new series comes to you as an accepted car. For, thousands of Rickenbackers are giving a well-nigh perfect performance in practically every state in the Union.
This is the car that introduced a new basic principle in motor design—the tandem flywheel! And thus, for the first time, all motor vehicle vibration was eliminated.
With a vibrationless engine came a new motoring sensation—a new thrill—new joy—a new sense of utter relaxation and complete repose. The new Rickenbackers are perfect beauties. Refined in the broadest sense of the word—a quality product in the literal meaning of the word.

Instructions To Aid You In Income Tax Reports

Every unmarried individual having a net income of \$1,000 or over is obliged to file an income tax return and every married individual living with husband or wife, having a net income of \$2,000 or over is obliged to file a return. Special attention is called to the fact that every person whose gross income is \$5,000 or more is required to file a return whether it is necessary to pay tax or not.

In arriving at the amount of gross income, the inventory at the beginning of the year should be added to the cost of goods purchased and the inventory at the end of the year should be deducted from this total. This amount should then be deducted from the amount of gross sales and the remainder will represent the gross income.

Income received from a state or political subdivision is not subject to income tax. Salary which is set apart for the taxpayer and which may be drawn on by him at any time is subject to tax for the year during which so credited or set apart even though he may not have actually reduced it to possession.

Under the Act of 1921, the rental value of a parsonage or rectory occupied by a minister is exempt from tax.

Interest received from obligations of a state or political subdivision thereof is exempt from income tax. An unmarried man is allowed an exemption of \$1,000 and a married man living with his wife is allowed an exemption of \$2,500 if his income is \$5,000 or less and \$2,000 if the income is over \$5,000. The amount of exemption is determined by the status of the taxpayer on the last day of the taxable year. A man who is married on the 31st day of December is granted the exemption allowed a married person for the full year. A widower whose wife died, say on the 30th day of December, is classed as a single man and allowed exemption of only \$1,000.

A special exemption of \$3,500 for persons in active military or naval service is no longer allowed and the exemptions allowed soldiers and sailors for 1922 are the same as those granted to civilians.

A married man or head of family is allowed an exemption of \$400 for each dependent under 18 years of age. Where incomes slightly exceed \$5,000, the law provides that the reduction of the amount of exemption from \$2,500 to \$2,000 should not operate.

FAIRVIEW PARENTS GIVE FINE PLAYLET

An interesting program was given at a meeting of the Parent-Teacher association of Fairview school Friday evening at the schoolhouse, south of Salem.

A playlet, "Mrs. Jenkins' Brilliant Idea," the principal feature, was well received. These women gave it: Mrs. Homer Dickinson, Mrs. B. N. Windle, Mrs. Ed Grubbs, Mrs. Frank Vincent, Mrs. Earl Windle, Mrs. Samuel Hilliard, Mrs. David Astory and Mrs. Clara Marlinee.

Here are the other numbers given: Organ solo, Bernice Dickinson; recitation, Julia Peppel; recitation, Dwight Dickinson; recitation, Zella Vincent; reading, Arthur Butcher; recitation, Juanita Grubbs; reading, Harold Astory; song, Wilma Dickinson; recitation, Bernice Dickinson.

IT'S NEURITIS! Not Rheumatism

That sharp, stabbing pain in the upper arm about the shoulder blade, under the nape of the neck along the forearm or down the thigh and leg, is often Neuritis—not rheumatism.

If you have severe frontal head ache with a feeling that something is twitching or pulling at the eyeballs—a dull, aching pain in the back accompanied by an occasional shooting pain in the side—numbness or tingling in the fingers or "stitches" of pain here and there, the chances are that your trouble is Neuritis.

No matter where your pain is located you can get prompt relief with our famous Tysmol, a powerful pain reliever, without the use of narcotics or other drugs. The rate of normal tax for the year 1922 is 4 per cent on the first \$4,000 and 8 per cent on the remaining net income. Surtax applies on all net incomes in excess of \$6,000. A head of the family is allowed an

McCULLOCH'S

WHAT DOES WOMAN'S INTUITION WHISPER?

It must be woman's intuition that whispers the coquettish tilt of her hat; stands at her elbow when she selects the shade of fabric that best complements her coloring.

But no "sixth sense" need prompt her in idealizing those lovely lines of hers. Good judgment will tell her to be fitted with a Modart Corset.

There are nearly a million women who wear just one kind of corset—the Modart—and not one will give you the usual woman's answer, "because," if questioned about the matter of corsetry.

They have very definite reasons for wearing the Modart, for it does just what a corset should do

and does nothing it shouldn't. That's the skill of Modart design. The Modart wearer has none of that corseted look or feeling.

Every type of figure will find a Modart—just the proper Modart—to bring out the ideal lines. And it fits splendidly—just smooth and perfect curves that follow the figure and the fashion as well.

Women might choose the Modart because it is so dainty and feminine and perfectly tailored. But they go on wearing the Modart because it gives so much better lines and so much more comfort than they ever believed a corset could. That is because there is no other corset like the Modart.

Your travels may take you from New York to Palm Beach, from Bar Harbor to the Golden Gate. Wherever you go among the gay throngs on the promenade, women more sedate in limousines, or colorful figures about the

golfing greens, you are sure to find Modart Corsets worn. Furnishing the background of quiet good taste in the character of delicate frocks or gorgeous gowns, there always is Modart—the choice of fastidious women.
